Dome Condiment Caddy

800462

\$95.00

Versatile and convenient Dome® Condiment Centers feature a patented domed-lid that rotates back for easy access and allows increased capacity when closed. NSF-certified and completely dishwasher safe, the Dome® is available in a wide array of configurations with standard and deep trays. Deep trays allow high-capacity use while standard trays leave room for ice or EZ-Chill™ re-freezable ice packs to keep garnishes chilled. Tray inserts can be pre-filled and stored in a cooler until needed. The Dome® is the perfect, portable cold-holding solution for hot dog concessions; also great for ice cream topping bars and more.

Oneida Fusion bright white porcelain coupe plates are great for serving a wide variety of foods in your ethnic or traditional restaurant. The bright white color of this plate will add an air of sophistication to your tabletop display while also ensuring your best foods stand out. Using steep angles and a rounded design, this Fusion plate with an East style is designed to enhance the overall look of your international dishes. With many traditional Asian dinnerware pieces included in the line, it is great for adding authentic Asian foods to your tabletop so you can create a custom mix of international cuisines that guests are sure to love. Great for serving side salads or fresh bread and butter, this plate is a must-have addition to your dinnerware collection.

Taylor Colour Coded Thermometers

824522

\$49.99

Thermometers are essential to maintaining the freshness of food in the refrigerator. This applies to both industrial, business, and household usage. When storing meat, fish, and poultry in a freezer, it's important to know at which specific temperatures they need to be maintained in. Products that are kept in a freezer require conditions that prevent bacterial growth. Oftentimes, these temperatures need to prevent the food products from freezing as well. Preciseness is vital in order to ensure that the food doesn't spoil or deteriorate in quality. Another important factor in the food preparation process is color coding. This technique saves tons of time and speeds up the food preparation process by tenfold. These color coded thermometers accurately represent and clearly label the various types of food that's being prepared in the kitchen. They accurately measure between temperatures of 0 degrees Fahrenheit to 330 degrees Fahrenheit and -10 degrees Celsius and 100 degrees Celsius. Moreover, using color coded thermometers aid in preventing cross contamination. Their stainless steel stems and shatterproof lenses are durable and easy to use. Furthermore, these thermometers come with pocket sleeves with patented built in calibration features and are NSF listed

10" Commercial Immersion Blender

810742

\$255.00

Designed and Engineered to handle your tough blending jobs. This 300 Series NSF® Certified Commercial Immersion Blender features a 10" removable blending arm with s-shaped blade to blend everything from smoothies, to sauces, soups and so much more. The quiet, yet powerful, DC motor with 2 speeds (11,000 and 18,000 RPM,) is powerful enough to handle difficult blending with ease, including dough. A convenient wall mount accessory is included for easy storage when not in use.

Robot Coupe Food Processor

826303

Call us for pricing

Cutting, slicing, and grating ingredients for a dozen dishes is a time-consuming process, which can be counterproductive in a busy commercial kitchen. Robot Coupe's R2NCLR combination food processor lets you tackle almost limitless food prep options at a fraction of the time it takes to do manually. This fast and efficient commercial food processor comes with a 3-quart-sized clear plastic batch bowl, which is the perfect size for processing small batches of ingredients or mixing multiple ingredients when making dips, sauces, and marinades. The clear and transparent material of the bowl and the lid allows you to see everything that's going on while the combination food processor is working and stop the machine when the ingredients have reached your desired consistency or coarseness. Equip your staff with a reliable commercial food processor now! Slice down your prep time with the Robot Coupe R2NCLR with 3 qt. combination food processor. Product features:

- Motor base unit with on-off and pulse switches
- Plastic cutter bowl with handle
- Stainless steel S blade
- Continuous feed unit with discharge plate
- One(1) medium 5/64' •(2mm) grating plate
- One (1) 5/32" (4mm) slicing plate
- 2-1/2 qt., 120V/60/1, ETL, UL, 1/2 hp.
